**FUND MANAGER'S REPORT**  
For the year ended 31 December 2017

The Fund Manager presents its report on the affairs of Vetiva Industrial Exchange Traded Fund ("the Fund") together with the financial statements and auditor's report for the year ended 31 December 2017.

**BACKGROUND INFORMATION**

The Vetiva Industrial Exchange Traded Fund ("the Fund") is an open-ended exchange traded fund established in July 2015 and registered with the Securities and Exchange Commission ("SEC"). The underlying objective of the Fund is to enable unit holders obtain market exposure to the constituent companies of the NSE Industrial Index in an easily tradable form, as listed ETF securities are traded on the floors of the Nigerian Stock Exchange (NSE), or any other licensed exchange on which the Fund may be listed subsequently. The Fund aims to replicate, as practicably as possible, the price and yield performance of the NSE Industrial Index.

The Fund invests 100% of its assets in the portfolio of securities that comprise the NSE Industrial Index.

The NSE Industrial Index is managed by the NSE and was created to provide an investable benchmark to capture the performance of the Industrial sector of the equities market. This index comprises the most capitalized and liquid companies in building materials, electronic and electrical products and packaging industries in Nigeria.

The components are subject to the above rules on a semi-annual basis and rebalanced accordingly.

**Fund manager's report (cont'd)**

**MARKET REVIEW**

**Overview**

**Real Economy:**

Having taken tentative steps onto the path of economic recovery (9M'17 GDP growth: 0.4% y/y; FY'16 GDP growth: -1.6% y/y), the Nigerian economy is set to expand further in 2018, bolstered by increased production in the oil and agriculture sectors. Growth in the real sector should be supported by the tag-team of lower inflation and lower interest rates, as well as continued stability in the foreign exchange (FX) market and another attempt at fiscal stimulus. However, challenges abound, particularly pertaining to persistently weak consumer demand and an itchy investment climate ahead of the 2019 elections. With a base scenario of moderate economic disruption from political activities in the year, we still anticipate growth drivers to be more significant in 2018 – GDP growth forecast: 2.0% y/y. Should the political landscape remain stable for most of the year, and fiscal and monetary stimulus unleashed to a material effect, we estimate a 2.9% y/y growth for the year. On the other hand, our bear scenario projects an FY'18 GDP contraction of 0.3% y/y, under the assumption of high political uncertainty and an adverse shock to oil output. These forecasts compare to International Monetary Fund (IMF) and World Bank forecasts of 1.9% y/y and 2.5% y/y respectively.

**Inflation:**

Inflation has been stickier than expected in 2017, moderating from 18.6% y/y to 15.9% y/y in the first ten months of the year, and just recording a 35bps decline between May and October. The story is mixed across food and core inflation, however: Food inflation accelerated from 17.4% y/y at the end of 2016 to 20.3% in October, driven by multiple supply shocks from planting and transport costs. In contrast, Core inflation moderated from 18.1% in December 2016 to 12.2% in November 2017. Helped by the onset of the harvest season, food price pressures have receded in recent months – 0.85% m/m rise in October from 2.54% m/m in May – as transport and export diversion issues have been quelled. Development finance initiatives and efforts to increase fertilizer use among farmers would also boost staples production and exert downward pressure on prices. On the core front, we expect a stable currency to reduce imported inflation, and although higher global energy prices are a threat, pump prices of premium motor spirit (PMS) should remain contained by regulation and an implicit subsidy as we approach the 2019 elections. Given our expectation of slightly stronger consumer demand and material election spending in H2'18, the capacity of the economy to absorb these increases in aggregate demand would determine whether inflation alters its current downward trend.

**Currency:**

After struggling through a two-year currency crisis that saw the naira lose 45% of its value against the dollar at the official exchange rate (from ₦167.50 at the end of 2014 to ₦305.00 at the end of 2016), Nigeria's foreign exchange (FX) market experienced some semblance of stability for most of 2017. Higher dollar inflows from improved federal oil earnings buoyed external reserves and in turn its ability to defend the local currency, triggering a series of aggressive injections of dollars into the economy. FMDQ transactions show a significant improvement in liquidity through the year – total market turnover rose from \$5.2 billion in January to \$14.0 billion in September. Furthermore, the introduction of the "Investors & Exporters" window ("NAFEX" fixing), buoyed market confidence and spurred a mild economic recover. We expect that the health of oil earnings and the market structure are the two key parameters for the 2018 FX market.

**Monetary Policy:**

The Monetary Policy Committee (MPC) maintained monetary policy status quo at its final meeting of 2017. Defending the decision to hold all monetary levels at their previous levels, the MPC highlighted that tightening further may rein in inflation, but would adversely affect economic growth and financial stability. In a similar vein, easing prematurely – as has been advocated in certain quarters – may lower borrowing costs in the economy, but could pose a significant risk to price stability, foreign exchange stability, and external balances. Intent on stimulating economic growth, the CBN has signaled monetary easing in the coming months, pushing down yields in the fixed income market in the process. Lower inflation in 2018 should give the MPC room to cut interest rates. On the back of stronger base effects, we expect inflation to decline faster in H1'18, so foresee a rate cut during that period. Overall, our base assumption is a year-end MPR of 12%.

Fund manager's report (cont'd)

**EQUITIES MARKET OUTLOOK IN 2017**

Coming off a sustained downtrend (NSE ASI shed 35% between 2014 and 2016), the Nigerian bourse has enjoyed a very good 2017, advancing 42.3%. Chief among the drivers of this surge was the introduction of the "Investors & Exporters" foreign exchange window ("I&E" window) which revived investor confidence and boosted liquidity in the foreign exchange market (FX)

Going forward, we anticipate continued progress on this front amidst a positive outlook for FX earnings on the back of stable oil prices and production levels. Supplementing this, recent regulation points towards a more significant role for domestic institutions in the Nigerian market which would inevitably support demand. Amidst these, an improving economic environment would buoy company earnings and risk appetite in the market, especially given our expectation of lower interest rates in 2018. The commencement of election cycle by mid-2018 poses a risk to our outlook of a stronger 2018 as electioneering is likely to generate more volatility in policy and the economy, which may induce greater market uncertainty. We expect some investors (mainly foreign) to sit on the sidelines in the second half of the year as the political landscape evolves, but are cautiously optimistic that the likelihood of controversy-free elections would minimize market volatility.

**INDUSTRIAL SECTOR OUTLOOK IN 2017**

The Fund is a passively managed fund that tracks the NSE Industrial Index, which constitutes the most capitalized stocks within the Industrial Sector listed on the Nigerian Stock Exchange. Hence our outlook for the Fund will be hinged on our overall outlook for the Equities Market and specifically, the Industrial sector.

2017 was in fact been a particularly slow year for infrastructure delivery, with just over N1 trillion released (as at year end) out of N2.2 trillion proposed, due to late passage of the budget and funding challenges. Come 2018, the usual story on Nigeria's huge infrastructural deficit and how it presents robust long-term demand upside for a long list of industrial materials will be little changed. Interestingly, FG's renewed stance on plugging the hole is bullish, even with another record CAPEX budget proposal of N2.6 trillion for 2018 - 16% higher than the 2017 budget which was equally a record at that time. Notwithstanding the strong ambitions, actual improvement in the supply gap will continue to remain sticky if CAPEX execution does not significantly improve.

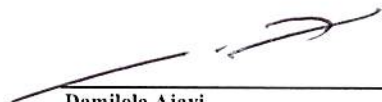

Aside from weak government demand in recent years, private sector demand has also been dismal, as recessionary pressures on consumer wallet and higher cement prices impacted demand. However, demand is projected to pick up in 2018, supported by our expectation of continued economic recovery (GDP - FY'17E: 0.6%, FY'18F: 2.0%) which should improve private consumption, coupled with our slightly more optimistic view on FG budget CAPEX execution. Also, we see possibility of some downward adjustments to the currently strong cement prices over the course of the year, and expect this to support volumes.

**Auditors**

Messrs. KPMG Professional Services having satisfied the relevant corporate rules on their tenure in office, have indicated their willingness to continue in office as auditor to the Fund. Therefore, the auditor will be re-appointed by the Fund Manager and Trustees of the Fund.

**Statement of Fund Manager's responsibilities in relation to the financial statements for the year ended 31 December 2017**

The Fund Manager accepts responsibility for the preparation of the annual financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRS) and in the manner required by the Financial Reporting Council of Nigeria Act, 2011.

The Fund Manager further accepts responsibility for maintaining adequate accounting records as required by the Financial Reporting Council of Nigeria Act 2011 and for such internal control as the Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatements whether due to fraud or error.

The Fund Manager has made an assessment of the Fund's ability to continue as a going concern and has no reason to believe the Fund will not remain a going concern in the year ahead.

SIGNED ON BEHALF OF THE BOARD OF DIRECTORS OF THE FUND MANAGER BY:

### Trustee's Report

The Trustees present their report on the affairs of the Vetiva Industrial Exchange Traded Fund ("the Fund"), together with the audited financial statements for the year ended 31 December 2017.

### Principal Activity:

The Fund was registered under the collective Investment Scheme by the Securities and Exchange Commission in accordance with the provisions of section 160 of the Investment and Securities Act (2007). The Fund was designed to replicate the price and yield performance of the NSE Industrial Index as far as is practicable, by holding a portfolio of securities that substantially represents all of the component securities of the NSE Industrial Index in the same weighting as the NSE Industrial Index as specified in clause 14.1 of the Trust Deed dated 07 July 2015.

The Fund is listed and quoted on the floor of the Nigerian Stock Exchange and maintains its assets separate from the assets of the manager. The Scheme has been administered in accordance with provisions of the Investment and Securities Act (2007) and the Fund's Trust Deed.

### Results:

The results for the year are extracted from the financial records prepared by the Fund Manager and duly audited in accordance with the provision of section 169(2) of the Investment and Securities Act of 2007.

The Net Asset Value of the Fund as at 31 December 2017 is as follows;

In thousands of Naira	31 December 17	31 December 16
Net Assets Value	86,661,230	67,386,340

The operating result for the year ended 31 December 2017, is as follows;

In thousands of Naira	31 December 17	31 December 16
(Loss) / Profit for the year	(10,785,788)	1,304,014

### Directors' and related parties' interest in the units of the Fund:

None of the Directors of Vetiva Fund Managers Limited held any direct or indirect beneficial interest in the units of the Fund as at 31 December 2017.

None of the directors of Union Trustees Limited has any direct or indirect beneficial interest in the units of the Fund.

### Statement of Trustees' responsibilities

The Trustees' responsibilities to the Fund are as follows:

1. To ensure that the basis on which the sale, issue repurchase or cancellation, as case may be, of participatory interests effected by or on behalf of the Fund is carried out in accordance with the investment and Securities Act, SEC Rules and Regulations and the Trust Deed.
2. To ensure that the selling or repurchase price or participatory interest is calculated in accordance with the Investment and Securities Act, SEC Rules and Regulations and the Trust Deed.
3. To carry out the instructions of the Manager unless they are inconsistent with the Investment and Securities Act, any applicable law or the Trust Deed.
4. To verify that the income accruals of the Fund are applied in accordance with the Investments and Securities Act, SEC Rules and Regulations and the Trust Deed.
5. To verify that in transactions involving the underlying portfolio any consideration is remitted to it within time limits which are acceptable market practice in the context of a particular transaction.
6. To enquire into and prepare a report on the administration of the Fund by the Manager during each annual accounting period in which it shall be stated whether the Fund has been administered in accordance with the provisions of the Investment and Securities Act, Custody Agreement and Trust Deed.
7. To state the reason for non-compliance and outline the steps taken by the Manager to rectify the situation where the Manager does not comply with the limitations and provisions referred to in the Trust Deed.
8. To send report on the administration of the Fund to the Commission and to the Manager in good time to enable the Manager include a copy of the report in its annual report of the Fund.
9. To ensure that there is legal separation of underlying portfolio and that the Legal entitlement of investors to such underlying portfolio is assured.
10. To ensure that the underlying portfolio are properly safeguarded and administered in accordance with relevant laws of the Commission.
11. Whenever it becomes necessary for the Trustee to enforce the terms and condition of the Trust Deed, the Trustee shall do so, within ten (10) working days and shall inform the Commission not later than ten (10) working days after the breach.
12. To ascertain that the monthly and other periodic returns / reports relating to the Fund are sent by the manager to the commission.
13. To monitor the register of the holders.
14. To generally monitor the activities of the Manager on behalf of and in the interest of the holders.
15. To take all steps and execute all documents which are necessary to secure acquisition or disposal properly made by the Manager in accordance with the Trust Deed and the Custody Agreement.

## INDEPENDENT AUDITOR'S REPORT

To the unit holders of **Vetiva Industrial Exchange Traded Fund**

### *Opinion*

We have audited the financial statements of Vetiva Industrial ETF (the Fund), which comprise the statement of financial position as at 31 December 2017, the statements of profit or loss and other comprehensive income, statements of changes in net assets attributable to unit holders and statements of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information as set out on pages 13 to 31.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 December, 2017, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and in the manner required by the Companies and Allied Matters Act, Cap C.20, Laws of the Federation of Nigeria, 2004 and the Financial Reporting Council of Nigeria Act, 2011.

### *Basis for Opinion*

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Nigeria, and we have fulfilled our ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Key Audit Matters*

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of financial assets at fair value through other comprehensive income

The Fund's investment in quoted equity securities measured at fair value through other comprehensive income makes up 91% of the total assets of the Fund (2016: 97%). In addition, the income earned on these equity securities account for over 76% of the Fund's total revenue for the year (2016: 76%). Therefore, due to the significance of the account balance, any potential misstatements could have a material impact on the Fund's financial position and performance. This made the audit of these quoted equity securities a significant audit focus area.

Tolulope A. Odukale	Victor U. Onyenkpa		

#### Procedures

Our audit procedures included but were not limited to the following:

- We checked the existence of investments in quoted equity securities at year end by agreeing the portfolio investment holdings to confirmation of the Fund's investment holdings received from the Custodian;
- We agreed the prices applied by Management in valuation of the portfolio to externally available quoted prices; and
- We recalculated the fair value of investments in the quoted equity securities and compared our calculation to the amount recorded by the Fund.

The Fund's accounting policy on financial assets at fair value through other comprehensive income and related disclosures and risks are shown in notes 3 (a) and 4 respectively.

#### Other information

The Board of directors of the Trustee and the Board of directors of the Fund Manager are responsible for the other information. The other information comprises the Trustee's Report, for which the Board of directors of the Trustee is responsible; and the following for which the Board of directors of the Fund Manager is responsible - Fund Information, Fund Manager's Report, Statement of Fund Manager's Responsibilities in relation to the financial statements, Certification by the Fund Manager and Other National Disclosures; but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of the Board of directors of the Fund Manager for the Financial Statements**

The Board of directors of the Fund Manager are responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs and in the manner required by the Financial Reporting Council of Nigeria Act, 2011, and for such internal control as the Board of directors of the Fund Manager determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of directors of the Fund Manager are responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of directors of the Fund Manager either intend to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Fund Manager.
- Conclude on the appropriateness of directors of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Board of directors of the Trustee and the Fund Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of directors of Trustee and the Fund Manager with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards .

**Notes to the financial statements**  
**For the year ended 31 December 2017**

**1 Reporting entity**

The Vetiva Industrials Exchange Traded Fund ("the Fund") is an open ended exchange traded Fund that operates in Nigeria. The address of the Fund's registered office is 266b Kofo Abayomi Street, Victoria Island Lagos. It was approved by the Securities and Exchange Commission ("SEC") in July 2015. The Fund commenced operations and units of the Fund were first traded on the Nigerian Stock Exchange in October 2015. The Fund is not a legal entity but is constituted and exists under the Trust Deed with Union Trustees Limited as its Trustees. The Fund tracks the NSE Industrials Index.

The Vetiva Industrial ETF is designed to track the performance of the constituent companies of the NSE Industrial Index and to replicate the price and yield performance of the Index. The NSE Industrial Index comprises of the top 10 companies in the Industrial sector listed on the Nigerian Stock Exchange ("NSE") in terms of market capitalization and liquidity and is a price index weighted by adjusted market capitalization.

**2 Basis of preparation**

**(a) Statement of compliance**

The financial statements have been prepared in accordance with International Financial Reporting Standards and in the manner required by the Financial Reporting Council of Nigeria Act, 2011.

The financial statements were authorized for issue by the Board of Directors of the Fund Manager on 29 March 2018.

**(b) Basis of measurement**

The financial statements have been prepared using appropriate accounting policies, supported by reasonable judgements and estimates. The Fund Managers have a reasonable expectation, based on an appropriate assessment of a comprehensive range of factors, that the Fund has adequate resources to continue to continue as going concern for the foreseeable future.

The financial statements have been prepared on a historical cost basis, except financial instruments measured at fair value through profit or loss, other financial instruments that are initially measured at fair value and subsequently at amortised cost. The Fund applies the accrual method of accounting where all income is recognized when earned and all expenses recognized once incurred.

Historical cost is generally based on the amount of cash and cash equivalent paid or received or fair value of consideration received or paid in exchange for assets and liabilities.

**(c) Functional and presentation currency**

The financial statements are presented in Naira which is the functional currency of the Fund.

**(d) Reporting period**

The financial statements have been prepared for the 12 months period ended 31 December 2017

**(e) Use of estimates and judgments**

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of the accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are described in note 5 to the financial statements.

Notes to the financial statements (cont'd)

**3 Statement of significant accounting policies**

**(a) Financial assets and liabilities**

**(i) Introduction**

Financial instruments include all financial assets and liabilities. These instruments are typically held for liquidity, investment, or trading purposes. All financial instruments are initially recognized at fair value plus directly attributable transaction costs, except those carried at fair value through profit or loss where transaction costs are recognized immediately in profit or loss.

Financial instruments are recognized (derecognized) on the date the Fund commits to purchase (sell) the instruments (trade date accounting).

**(ii) Classification, initial and subsequent measurement**

A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue.

The Fund classifies its financial assets and liabilities into the following categories:

- Available-for-sale financial assets - Investment securities
- Loans and receivables - Cash and cash equivalents and receivables
- Other Financial liabilities - Account payables

**Available-for-sale financial assets**

Financial assets classified by the Fund as available-for-sale financial assets are generally those that are not designated into any other category of financial assets, or strategic capital investments held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices.

The Fund's policy requires the Investment Manager and the Board of Directors to regularly evaluate information about these financial assets measured at fair value together with other related financial information.

Available-for-sale financial assets are subsequently measured at fair value with the exception of unquoted equity investments whose fair value cannot be reliably measured which are carried at cost. Unrealised gains and losses arising from changes in the fair value of available-for-sale financial assets are recognized directly in fair value reserve in other comprehensive income until the financial asset is derecognised or impaired. When available-for-sale financial assets are disposed off, the fair value adjustments accumulated in other comprehensive income are recognized in profit or loss as realised gain or loss.

**Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than:

- those that the Fund intends to sell immediately or in the short term, which are classified as held for trading and those that the Fund upon initial recognition, designates as fair value through profit or loss;
- those that the Fund upon initial recognition designates as available for sale; or those for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration.

• **Cash and cash equivalents**

Cash and cash equivalents comprise deposits with banks and highly liquid financial assets with maturities of less than ninety days from the acquisition date. These financial instruments can be converted to a known amount of cash, are subject to an insignificant risk of changes in their fair value, and are used by the Fund in the management of short-term commitments.

• **Accounts receivable**

Accounts receivable comprises dividend income earned but not yet received by the Fund.

**Subsequent measurement**

Loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

**Other liabilities**

Other liabilities are financial liabilities that are not classified as held-for- trading or designated at fair value through profit or loss. These financial liabilities are measured at other amortised cost. Other liabilities comprise balances due to the Fund Manager, Trustees, Registrars, Custodians, Auditors to the Fund, and other creditors.

Notes to the financial statements (cont'd)

(iii) Amortised cost measurement and effective interest

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured on initial recognition minus principal repayments plus or minus the cumulative amortisations using the effective interest rate methods of any difference between the initial amount recognized and the maturity amount minus any reduction for impairment.

The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial instrument (or, when appropriate, a shorter period) to the carrying amount of the financial instrument. When calculating the effective interest rate, the Fund estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses. Interest received or receivable, and interest paid or payable, are recognized in profit or loss as interest income and interest expense, respectively.

Origination transaction costs and origination fees received that are integral to the effective rate are capitalized to the value of the financial asset or liability and amortized through interest income or interest expense as part of the effective interest rate.

(iv) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Fund has access at that date. The fair value of an asset or liability reflects its non-performance risk.

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

(v) Impairment of financial assets

A financial asset not classified at fair value through profit or loss is assessed at each reporting date, to determine whether there is objective evidence of impairment. A financial asset or a group of financial assets is impaired and impairment losses are recognized if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Objective evidence that financial assets are impaired include significant financial difficulty of the borrower or issuer, default or delinquency by a borrower, restructuring of the amount due on terms that the Fund would not otherwise consider, indications that a borrower or issuer will enter bankruptcy or adverse changes in the payment status of the borrower.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flow discounted at the assets original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on impaired assets continue to be recognized. When an event occurring after the impairment was recognized causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Available-for-sale financial assets are impaired if there is objective evidence of impairment, resulting from one or more loss events that occurred after initial recognition but before the reporting date, that have an impact on the future cash flows of the asset. In addition, an available-for-sale equity instrument is generally considered impaired if a significant or prolonged decline in the fair value of the instrument below its cost has occurred. The Fund considers a decline of 20% to be significant, and a period of nine months to be prolonged. Where an available-for-sale asset, which has been remeasured to fair value directly through equity, is impaired, the impairment loss is recognized in profit or loss. If any loss on the financial asset was previously recognized directly in equity as a reduction in fair value, the cumulative net loss that had been recognized in equity is transferred to profit or loss and is recognized as part of the impairment loss. The amount of the loss recognized in profit or loss is the difference between the acquisition cost and the current fair value, less any previously recognized impairment loss.

If, in a subsequent period, the amount relating to an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognized, where the instrument is a debt instrument, the impairment loss is reversed through profit or loss. An impairment loss in respect of an equity instrument classified as available-for-sale is not reversed through profit or loss but accounted for directly in equity.

Notes to the financial statements (cont'd)

**(vi) Derecognition**

The Fund derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred, or in which the Fund neither transfers nor retains substantially all the risk and rewards of ownership and does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the assets (or the carrying amount allocated to the portion of the asset derecognised), and the consideration received (including any new asset obtained less any new liability assumed) is recognized in profit or loss.

The Fund enters into transactions whereby it transfers assets recognized on its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognized. Transfer of assets with retention of all or substantially all risks and rewards include securities lending and repurchase transactions.

The Fund derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

**(vii) Offsetting**

Financial assets and liabilities are set off and the net amount presented in the statement of financial position when, and only when, the Fund has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Incomes and expenses are presented on a net basis only when permitted under International Financial Reporting Standards (IFRS).

**(b) Interest income and expenses**

Interest income and expense, including interest income from non-derivative financial assets at fair value through other comprehensive income, are recognized in profit or loss, using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial instrument (or, when appropriate, a shorter period) to the carrying amount of the financial instrument on initial recognition. When calculating the effective interest rate, the Fund estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses

**(c) Dividend income**

Dividend income is recognized in profit or loss on the date on which the right to receive payment is established. For quoted equity securities, this is usually the ex-dividend date. Dividend income from equity securities are recognized in profit or loss as a separate line item.

**(d) Expenses**

Expenses comprising management fees, custodian fees, registrar fees, trustee's fees, auditor's fees, and other expenses are recognized over the period in which the services are rendered, in accordance with the substance of the Trust Deed and relevant agreements.

**(e) Transaction costs**

Transaction costs are costs incurred to acquire financial assets or liabilities. They include the bid-ask spread, fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and securities exchanges.

Transaction costs incurred on financial assets or liabilities recorded at amortised cost are part of the amortised cost value and amortised over the life of the financial instrument.

Transaction costs incurred for other assets and liabilities including those classified as fair value through profit or loss are expensed when incurred.

**(f) Taxation**

The Fund is exempt from paying income taxes under the current system of taxation in Nigeria. However, dividend income and interest income on fixed interest and dividend income received by the Fund are subject to withholding tax in Nigeria and represent final income tax on the profit for the period. During the period, the withholding tax rate was 10%.

Notes to the financial statements (cont'd)

**(g) Capital**

*(i) Equity attributable to unitholders*

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

The Fund's units in issue are financial instruments issued by the Fund and on liquidation of the Fund, the Unitholders are entitled to the residual net assets. They rank *pari passu* in all material respects and have identical terms and conditions. The units provide the investors with the right to require redemption for cash at a value proportionate to the investor's share in the Fund's net assets at each redemption date and also in the event of the Fund's liquidation.

A puttable financial instrument that includes a contractual obligation for the Fund to repurchase or redeem that instrument for cash or another financial asset is classified as equity if it meets all the of the following conditions

- It entitles the holder to a pro rata share of the Fund's net assets in the event of the Fund's liquidation;
- It is in the class of instruments that is subordinate to all other classes of assets of instruments;
- All financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- Apart from the contractual obligation for the Fund to repurchase or redeem the instrument for cash or another financial assets, the instruments does not include any other features that would require classification as a liability; and
- The total expected cash flows attributable to the instruments over its life are based substantially on the profit or loss, the change in the recognized net assets or the change in the fair value of the recognized and unrecognised net assets of the Fund over the life of the instrument.

The Fund's units meet these conditions and are classified as equity.

*(ii) Repurchase of units*

When units recognised as equity are redeemed, the par value of the units is presented as a deduction from capital. Any premium or discount to par value is recognised as an adjustment to retained earnings.

**(h) Earnings per unit**

The Fund presents basic and diluted earnings per unit data for its units. Basic earning per unit is calculated by dividing the profit or loss attributable to unit holders of the Fund by the total number of units outstanding during the period.

Diluted earnings per unit is determined by adjusting the profit or loss attributable to unit holders and the total number of units outstanding for the effects of all dilutive potential units.

**(i) Contingent liabilities**

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Fund or the Fund has a present obligation as a result of past events which is not recognised because it is not probable that an outflow of resources will be required to settle the obligation, or the amount cannot be reliably estimated. Contingent liabilities are disclosed in the financial statements.

**(j) Standards and interpretations issued but not yet effective**

The Fund has consistently applied the accounting policies set out in notes 3(a) - 3(i) to all periods presented in these financial statements.

*New standards, amendment and interpretations issued but not yet effective*

A number of new standards are effective for annual periods beginning after 1 January 2017 and earlier application is permitted; however, the Fund has not early applied these new or amended standards in preparing these financial statements. The one standard potentially relevant to the Fund is IFRS 9 Financial Instruments, which is discussed below:

**(a) Financial Instruments (IFRS 9)**

The Fund is required to adopt IFRS 9 Financial Instruments from 1 January 2018. IFRS 9 replaces IAS 39 *Financial Instruments: Recognition and Measurement*. It includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets and new general hedge accounting requirements. It carries forward the guidance on recognition and dereognition of financial instruments from IAS 39.

Notes to the financial statements (cont'd)

*Classification of financial assets and financial liabilities*

IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics.

The standard includes three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income (FVOCI) and FVTPL. It eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale.

Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never bifurcated. Instead, the whole hybrid instrument is assessed for classification.

IFRS 9 largely retains the existing requirements in IAS 39 for the classification of financial liabilities. However, although under IAS 39 all fair value changes of liabilities designated as at FVTPL are recognised in profit or loss, under IFRS 9 these fair value changes are generally presented as follows:

- the amount of change in the fair value that is attributable to changes in the credit risk of the liability is presented in OCI; and
- the remaining amount of change in the fair value is presented in profit or loss

Based on the Fund's assessment, this standard is not expected to have a material impact on the classification of financial assets and financial liabilities

- the financial instruments currently classified as held-to-maturity under IAS 39 Financial Instruments: Recognition and Measurement will continue to be classified as such under IFRS 9

- financial instruments currently measured at FVTPL under IAS 39 are designated into this category because they are managed at fair value basis in accordance with a documented investment strategy. Accordingly, these financial instruments will be mandatorily measured at FVTPL under IFRS 9; and

- financial instruments currently measured at amortised cost: cash balances and receivables from reverse sale and repurchased agreements. These instruments meet the solely payments of principal and interest (SPPI) criterion and are held in a held-to-collect business model. Accordingly, they will continue to be measured at amortised cost under IFRS 9.

- financial instruments currently measured at AFS under IAS 39 will be measured at FVOCI under IFRS 9. Consequently, all fair value gains and losses will be reported in OCI, no impairment losses will be recognised in profit or loss and no gains or losses will be reclassified to profit or loss on disposal.

*Impairment of financial assets*

IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' (ECL) model. This will require considerable judgement about how changed in economic factors affects ECLs, which will be determined on a probability-weighted basis.

The new impairment model will apply to financial assets at amortised cost of FVOCI, except for investments in equity instruments.

Under IFRS 9, loss allowances will be measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within 12 months after the reporting date; and
- lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument

*Hedge accounting*

The fund does not apply hedge accounting; therefore, IFRS 9 hedge accounting-related changes do not have an impact on the financial statements of the Fund

*Disclosures*

IFRS 9 will require extensive new disclosures, in particular about credit risk and ECLs.

*Transition*

Changes in accounting policies resulting from adoption of IFRS 9 will generally be applied retrospectively, except as described below.

- The Fund will take advantage of the exemption allowing it not to restate comparative information for prior years with respect to classification and measurement (including impairment changes). Differences in carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 will be recognised in retained earnings and reserves as at 1 January 2018

Notes to the financial statements (cont'd)

*(b) Revenue from Contracts with Customers (IFRS 15)*

This standard replaces IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfer of Assets from Customers and SIC-31 Revenue – Barter of Transactions Involving Advertising Services. The standard contains a single model that applies to contracts with customers and two approaches to recognising revenue: at a point in time or overtime. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognised.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration which the entity expects to be entitled to in exchange for those goods and services. The standard incorporates a five step analysis to determine the amount and timing of revenue recognition.

The standard is not expected to have a significant impact on the Fund as the Fund's revenue is mainly interest income.

*(c) Leases (IFRS 16)*

This standard will replace the existing standard IAS 17 *Leases* as well as the related interpretations and sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, being the lessee (customer) and the lessor (supplier).

The core principle of this standard is that the lessee and lessor should recognise all rights and obligations arising from leasing arrangements on balance sheet.

The most significant change pertaining to the accounting treatment of operating leases is from the lessees' perspective. IFRS 16 eliminates the classification of leases as either operating leases or finance leases as is required by IAS 17 and introduces a single lessee accounting model, where a right of use (ROU) as set together with a liability for the future payments is to be recognised for all leases with a term of more than 12 months, unless the underlying asset is of low value.

The lessor accounting requirements in IAS 17 has not changed substantially in terms of this standard as a result a lessor continues to classify its leases as operating leases or finance leases and accounts for these as it currently does in terms of IAS 17. In addition, the standard requires lessor to provide enhanced disclosures about its leasing activities and in particular about its exposure to residual value risk and how it is managed.

The Fund is yet to carry out an assessment to determine the impact that the initial application of IFRS 16 could have on the Fund

**4 Financial risk management and fair value disclosures**

**Introduction and overview**

The Fund has exposure to the following risks from financial instrument:

- Market risk
- Credit risk
- Liquidity risk

**Risk management framework**

The Fund Manager has discretionary authority to manage the asset of the Fund in line with the Fund's investment objectives and in compliance with the target asset allocation and composition of the portfolio as stipulated by the investment committee quarterly.

In instances where the portfolio has diverged from the target asset allocation, the Fund Manager is obliged to take actions to rebalance the composition of the portfolio in line with established targets and within the prescribed time limit.

The Fund uses different methods to measure the various types of risks and the means of managing them are documented below:

**a Market risk**

Market risk is the risk that changes in market prices, such as interest rates and equity prices, will adversely affect the Fund's income or the fair value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Fund's market risk is affected by changes in actual market prices.

The Fund does not have transactions in any other currency except the Fund's functional currency in Naira. Hence, it is not exposed to foreign exchange risk.

The Fund's investment in interest linked financial assets is limited to fixed rate instruments like placements and bank balances, hence it is not exposed to fluctuations in market interest rate.

*(i) Market price risk*

The Fund's strategy for the management of market risk is driven by the Fund's investment objectives. The Fund's investment objectives, policies and processes are aimed at instituting a model that objectively identifies, measures and manages market risks in the Fund. The Fund's market position are monitored on a periodic basis by the investment committee. The investments of the Fund are subject to normal market fluctuations and the risk inherent in investment in financial instruments. The market risk is managed and reduced through a careful selection of securities within the limits of investment objectives and strategy. In addition, the risk is managed through diversification of assets held while the rebalancing policy in place allows for bringing within limit any security which may have exceeded its limit as a result of market established limits.

An overview of the Fund's investment portfolio as at 31 December 2017 is shown in note 16

Notes to the financial statements (cont'd)

The sensitivity analyses set out below show the impact of a 1%, 2% and 5% increase and decrease in the value of equities carrying value based on the exposure to equity price risk at the reporting date.

	31-Dec-17	31-Dec-16
Carrying value	84,747,620	67,471,674
Impact of price movement on profit and net assets attributable to unitholders:		
+ 1%	847,476	674,717
+ 2%	1,694,952	1,349,433
+ 5%	4,237,381	3,373,584
- 1%	(847,476)	(674,717)
- 2%	(1,694,952)	(1,349,433)
- 5%	(4,237,381)	(3,373,584)

**b Credit risk**

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment it has to the Fund resulting in a financial loss.

The Fund is subject to credit risk from its holdings in money market placements. The Fund limits this exposure to credit loss by placing funds with banks and investing in securities issued by entities with high credit quality and by diversifying among a number of issuers.

All transactions in securities conducted on the Exchange are settled within T+2 days, and settlements are made through regulated brokers. The risk of default is considered minimal given that the transactions are executed on an exchange.

The Fund's cash is held with the custodian, UBA Global Investor Services, a subsidiary of United Bank for Africa PLC which is rated 'Aa-' (2016: 'Aa-') based on Augusto & Co ratings.

Outstanding dividends are due from highly rated companies whose stocks are presently trading on the floor of the Nigerian Stock Exchange ('NSE'). The Exchange ensures that all declared dividends declared are paid.

In line with the Trust Deed, the Fund is not authorized to engage in securities lending.

**c Liquidity risk**

Liquidity risk is the risk that the Fund will encounter difficulties in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Fund's Trust Deed provides for daily creation and cancellation of units and it is therefore exposed to liquidity risk of meeting unit holders' redemptions. Liquidity risk is managed by investing the Fund's assets in investments that are traded in an active market and can be easily disposed. In addition, the Fund aims to retain sufficient cash and cash equivalent positions to maintain liquidity.

As at 31 December 2017, the Fund's investments are considered readily realizable and highly liquid; therefore, the Fund's exposure to liquidity risk is considered minimal. The following were the contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted.

31 December 2017		Contractual cash flows				
	Note	Carrying amount	Total	Less than 3 months	3 - 6 months	6 months - 1 year

d Concentration risk

Concentration risk refers to any single exposure or group of exposures large enough to cause credit losses which threaten the fund's capital adequacy or ability to maintain its core operations. It is the risk that common factors within a risk type or across risk types cause credit losses or an event occurs within a risk type which results to credit losses.

A breakdown of the Fund's investment portfolio as at 31 December 2017 is shown in note 16.

5 Uses of estimates and judgments

(a) Critical accounting judgment in applying the Fund's accounting policies

(i) Financial asset and liability classification

The Fund's accounting policies guide scope for assets and liabilities to be designated on inception into different accounting categories in certain circumstances.

- The unit holders interest is classified as equity, as the Fund has determined that it has met the criteria for this designation set out in note 3(g)(i).

(ii) Valuation of financial instruments

The Fund's accounting policy on fair value measurement is discussed in note 3(a)(iv).

The Fund measures fair value using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- (i) Level 1 : Quoted market price (unadjusted) in an active market for an identical instrument.
- (ii) Level 2 : Valuation techniques based on observable inputs, either directly; (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using : quoted market prices in active markets for similar instruments ; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- (iii) Level 3 : Valuation techniques using significant unobservable inputs. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instruments' valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted prices or dealer price quotations. For all other financial instruments the Fund determines fair values using valuation techniques. Valuation techniques include net present value and discounted cashflow models, comparison to similar instruments for which market observable prices exist and other valuation models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other premia used in estimating discount rates, bonds and equity prices, foreign currency exchange rates, equity and equity index prices volatilities and correlations. The objective of valuation technique is to arrive at a fair value determination that reflects the price of the financial instruments at reporting date that would have been determined by market participants acting at arm's length.

Availability of observable market prices and model inputs reduces the need for management judgment and estimation and reduces the uncertainty associated with determination of fair value. Availability of observable market prices and inputs varies depending on the produce and market and is prone to changes based on specific events and general conditions in the financial markets.

The table below analyses financial instruments measured at fair value at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised.

Notes to the financial statements (cont'd)

31 December 2017

	Note	Level 1	Level 2	Level 3	Total
Investment securities	15	84,747,620	-	-	84,747,620
		84,747,620	-	-	84,747,620

31 December 2016

	Note	Level 1	Level 2	Level 3	Total
Investment securities	15	67,471,674	-	-	67,471,674
		67,471,674	-	-	67,471,674

(b) Financial instruments not measured at fair value

The financial assets not measured at fair value include cash and cash equivalent, receivables and payables. These are short-term financial assets and financial liabilities whose carrying amounts approximate fair value, because of their short-term nature and the high credit quality of counterparties.

6 Classification of financial assets and liabilities

The table below shows the categories into which the line items of financial instruments have been classified:

31 December 2017

	Note	At available for sale	At fair value through profit or loss	Loans and receivables	Other Financial liabilities	Total carrying
Cash and cash equivalents	14	-	-	3,747,055	-	3,747,055

	<b>2,355,755</b>	<b>3,301,683</b>

**12 Income tax expense**

The Fund is exempt from paying income taxes under the current system of taxation in Nigeria. However, dividend income and interest income on fixed deposits received by the Fund are subject to withholding tax in Nigeria and represent final income tax on the profit for the year. During the year, the withholding tax rate was 10%.

	<b>31-Dec-17</b>	<b>31-Dec-16</b>
Withholding tax on dividend and interest income	31,621	13,683
<b>Total tax expense</b>	<b>31,621</b>	<b>13,683</b>

Notes to the financial statements (cont'd)

13 Earnings per unit (Basic and diluted)

Earnings per unit is calculated by dividing the profit for the year by the number of units as at year end.

	31-Dec-17	31-Dec-16
(Loss)/ profit for the year	(10,785,788)	1,304,014
Number of units as at year end (see note 19(b)(i))	4,526,523	4,461,523
(Loss)/ earnings per unit (kobo)	(238.28)	29.23

The Fund does not have any dilutive potential units. Therefore, basic earnings per unit and diluted earnings per unit are the same for the Fund.

14 Cash and cash equivalents

Cash and cash equivalents comprise:

	31-Dec-17	31-Dec-16
Cash balances with banks	3,747,055	2,272,018
	3,747,055	2,272,018

15 Investment securities

(a) Analysis of investment securities:

At fair value through other comprehensive income:

	31-Dec-17	31-Dec-16
Quoted investments (see note (b) and note 16 below)	84,747,620	67,471,674
	84,747,620	67,471,674

	31-Dec-17	31-Dec-16
Current	84,747,620	67,471,674
Non Current	-	-
Balance, end of year	84,747,620	67,471,674

	31-Dec-17	31-Dec-16
(b) Equity investments comprise:		
Quoted equity securities at cost	80,268,773	91,665,354
Fair value changes	4,478,847	(24,193,680)
Treasury bills at cost	-	-
Fair value changes	-	-
Interest income receivable - treasury bills	-	-
Net carrying amount	84,747,620	67,471,674

(c) The movement in fair value changes was as follows:

Balance, beginning of the year	(24,193,680)	(142,685)
Change in the year:		
- net change	12,194,568	(24,057,165)
- transfer to profit or loss on disposal	16,477,959	6,170
Balance, end of year	4,478,847	(24,193,680)

(d) Cashflow movement

	31-Dec-17	31-Dec-16
Opening balance	67,471,674	91,178,974
Net fair value changes in OCI	12,194,568	(24,057,165)
Changes in financial assets	5,081,378	343,695
Closing	84,747,620	67,471,674

Notes to the financial statements (cont'd)

16 Investment portfolio

The concentration of the investment portfolio of the Fund was as follows:

		31 December 2017		
		(N)

19 Unitholders' equity

(a) The Vetiva Industrials ETF is authorised and registered in Nigeria as a Unit Trust Scheme under Section 160 of the Investment and Securities Act (ISA). The Fund is governed by a Trust Deed with Union Trustees Nigeria Limited as Trustees. The Fund's total unit capital as at year ended 31 December 2017 was 4,526,523 units.

The rights accruing to unitholders of the Fund are as follows:

- The units may be redeemed at any time by the unitholders at the net asset value per unit less expenses directly attributable to redemption of units.
- Redeemable units carry a right to receive notice of, attend and vote at meetings of unitholders.
- All units rank pari-passu with the same rights and benefits at meetings of the Fund.

(b) The analysis of movements in the number of units and net assets attributable to unitholders during the year were as follows:

(i) Number of units

	31-Dec-17	31-Dec-16
Balance at beginning of year	4,461,523	4,461,523
Subscription of units during the year	65,000	-
Balance at 31 December	<b>4,526,523</b>	<b>4,461,523</b>

(ii) Net assets attributable to unitholders

2017	Unitholders' equity	Retained earnings	Fair value reserves	Total
Opening balance	96,056,612	(4,476,592)	(24,193,680)	67,386,340
Subscription during the year	1,388,151	-	-	1,388,151
Fair value changes due to AFS equities	-	-	12,194,568	12,194,568
Reclassification to profit or loss on disposal	-	-	16,477,959	16,477,959
Loss for the year	-	(10,785,788)	-	(10,785,788)
As at 31 December 2017	<b>97,444,763</b>	<b>(15,262,380)</b>	<b>4,478,847</b>	<b>86,661,230</b>
<b>Net asset value per unit (Naira)</b>				<b>19.15</b>

Notes to the financial statements (cont'd)

2016	Unitholders' equity	Retained earnings	Fair value deficits	Total
Opening balance	96,056,612	(5,780,606)	(142,685)	90,133,321
Fair value changes due to AFS equities	-	-	(24,057,165)	(24,057,165)
Reclassification to profit or loss on disposal of equities			6170	6,170
Profit for the year	-	1,304,014	-	1,304,014
As at 31 December 2016	96,056,612	(4,476,592)	(24,193,680)	67,386,340
<b>Net asset value per unit (Naira)</b>				<b>15.10</b>

(c) Distribution paid to unitholders

There was no distribution to shareholders during the year

20 Related party transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions, or one other party controls both. The Fund's key related party is its Fund Manager, Vetiva Fund Managers Limited. Other related parties include the entities in the Vetiva Group and the key management personnel of the Fund Manager.

a) Transactions with related parties

i. Management fees

The Fund is managed by Vetiva Fund Managers Limited ("the Fund Manager"), an investment management company incorporated in Nigeria and domiciled in Lagos. Under the terms of the management agreement, the Fund appointed Vetiva Fund Managers Limited as an Investment Manager to provide fund management services to the Fund. Vetiva Fund Managers Limited receives a fee based on an annual rate of 0.4% of the net asset value of the Fund accrued daily and payable quarterly. Under the Trust deed, the annual management fees and other fees and expenses of each of the Fund, should not exceed 3% of the Net Asset Value of the Fund or any other limit as may be set by the commission from time to time

In 2017, the Fund accrued a total sum of N7,279,622 which exceeded the maximum expenses allowed of N2,450,350. The amount to be covered by the Fund Manager was then applied on Fund Managers Fees and Index Licensing Fees

ii. UBA Plc (Global Investors Services)

UBA plc (Global Investors Services) remains the Fund's Custodian. Under the custodial service agreement, the custodian fees shall be 0.0375% of the assets under custody. These fees shall be paid out of the Fund. Total Custodian fees for the year was N32,300.

iii. Union Trustees Limited

UTL Trust Management Services Limited remains the Fund's Trustee. Under the Trust deed, the trustee is entitled to an annual fee of 0.0375% of the value of the assets under custody, accrued on a daily basis, and payable semi-annually in arrears but subject to a minimum of N400,000, exclusive of VAT. The annual fees shall accrue on a daily basis. Total Trustees fees for the year was N420,000.

21 Contingencies

There were no contingent assets and liabilities as at 31 December 2017.

22 Claims and litigations

There were no claims and litigations as at 31 December 2017.

23 Events after the reporting period

There are no events after the reporting that require recognition and/or disclosure in the financial statements.
