FUND DESCRIPTION

The Vetiva Banking ETF "VETBANK ETF" is an open-ended Exchange Traded Fund managed by Vetiva Fund Managers Limited. The VETBANK ETF is designed to track the performance of the constituent companies of the NGX BANKING Index and to replicate the price and yield performance of the Index.

INDEX DESCRIPTION

The NGX BANKING Index comprises of the top 10 banks listed on the Nigerian Exchange Group ("NGX") in terms of market capitalization and liquidity and is a price index weighted by adjusted market capitalization.

MARKET REVIEW & OUTLOOK

The Banking Index recorded strong m/m performances in February as this sector contributed to the gains recorded by the NGX in February. Investors bought up stocks across all tiers, with Tier-II player, STANBIC, the strongest performer. Additionally, ZENITHBANK (+6.00% m/m), UBA (+6.10% m/m), and ACCESSCORP (+4.95% m/m) also contributed to the sector's gains. Most listed lenders showed positive returns m/m, with FIDELITBK being a standout performer, recording a gain of 24.14% m/m.

Looking forward, we anticipate a mixed performance for the market in March. Investors' reactions to the latest earnings results of listed firms drove the positive trend in February; however, we also expect some investors to take profit in March. This profit-taking action is likely to exert downward pressure on the market's overall performance, leading to a mixed outlook.

PERFORMANCE HISTORY¹
