### FUND DESCRIPTION

The Vetiva Consumer ETF "VETGOODS ETF" is an open-ended Exchange Traded Fund managed by Vetiva Fund Managers Limited. The VETGOODS ETF is designed to track the performance of the constituent companies of the NGX Consumer Goods Index and to replicate the price and yield performance of the Index.

### INDEX DESCRIPTION

The NGX Consumer Goods Index comprises of the top 15 companies in the Food/Beverages and Tobacco sector listed on the Nigerian Exchange Group ("NGX") in terms of market capitalization and liquidity and is a price index weighted by adjusted market capitalization.

### MARKET REVIEW & OUTLOOK

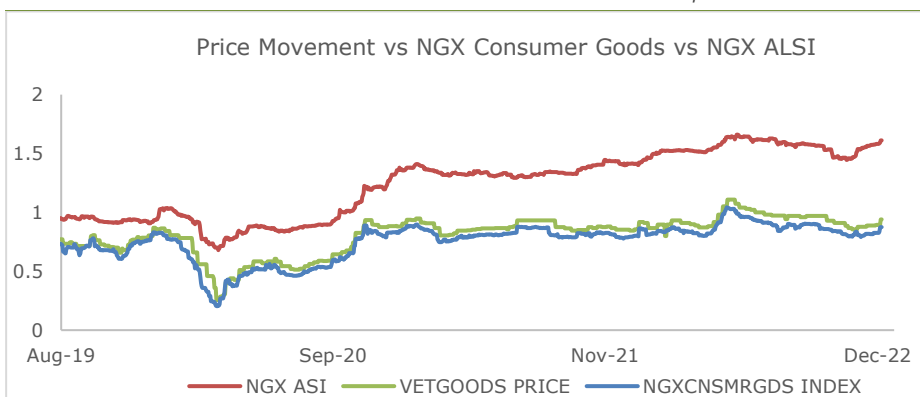

The Consumer goods sector recorded a positive increase in its performance as there was a renewed interest in the sector. The sector contributed to the gains recorded by the NGX in December 2022 with a growth in performance of 3.62% m/m. Two stocks that contributed to this growth are INTBREW and DANSUGAR with a growth of 10.25% and -1.54% m/m.

Looking forward, we expect a mixed level of activity in the consumer goods sectors. Investors will engage in cherry-picking on fundamentally sound stocks with attractive dividend yields, which would favor some counters, especially in the banking sector.
