**FUND DESCRIPTION**

The Vetiva Griffin 30 ETF "VG 30 ETF" is an open-ended Exchange Traded Fund managed by Vetiva Fund Managers Limited. The VG 30 ETF is designed to track the performance of the constituent companies of the NGX 30 Index and to replicate the price and yield performance of the Index.

**INDEX DESCRIPTION**

The NGX 30 Index comprises of the top 30 companies listed on the Nigerian Exchange Group ("NGX") in terms of market capitalization and liquidity and is a price index weighted by adjusted market capitalization.

**MARKET SUMMARY**

The All-Share Index (ASI) closed in negative territory in March, losing 1.99% month-on-month (m/m), with the ASI closing the month at 105,670.36 points resulting in a YTD gain of 2,67%. Similarly, the NGX30 Index mirrored this negative close, losing 2.03% m/m.

We saw negative performance across all sectors, with the Oil & Bank sector being the worst performer (-4.02% m/m), following losses in tickers like OANDO, ARADEL and CONOIL which lost -16.71% m/m, -5.48% m/m and -10.00% m/m respectively while SEPLAT remained flat with TOTAL gaining 1.45% m/m. The banking index also closed in the red (-0.49% m/m) following losses in stocks like ZENITHBANK (-2.79% m/m), WEMA (-10.08% m/m), and ACCESSCORP (-12.70% m/m) although we saw positive performances in GTCO (12.42% m/m), and UBA (0.27%). The Industrial Goods Index shed 3.59% m/m following profit taking activities in WAPCO (-1.60% m/m), BERGER (-9.81% m/m) and BUACEMENT (-10.00% m/m) The Consumer Goods Sector also closed in negative territory with a loss of 1.30% m/m driven by a bearish run in CADBURY (-10.46% m/m), DANSUGAR (-s 17.25% m/m) and HONEYFLOUR (-9.85% m/m)

Looking ahead, the market outlook remains largely cautious amid tepid appetite for risky assets in the currently volatile global investment and economic environment. That said, we see opportunities for selective improvement in sentiment as investors position themselves in anticipation of impressive Q1 results and dividend announcements in April.. With this, we note the diversification benefit that the VG 30 ETF offers and maintain our position on the ETF being poised for stable long-term growth.

**PERFORMANCE HISTORY<sup>1</sup>**
